

HIMANSHU KUMAR

Yamuna Nagar, Haryana | +91 87085 67019 | himanshukumar62028@gmail.com | LinkedIn

CAREER OBJECTIVE

Detail-oriented Frontend & MERN Stack Developer skilled in building component-driven user interfaces and robust RESTful architectures. Driven to apply technical proficiency in React.js, Next.js, and full-stack deployment workflows to build seamless, high-quality user experiences.

EDUCATION

Master of Computer Applications (MCA) Sep 2024 – Present
Kurukshetra University, Kurukshetra, Haryana

Bachelor of Computer Applications (BCA) Sep 2021 – Jul 2024
Seth Jai Parkash Mukand Lal Institute of Engineering and Technology, Radaur, Haryana

Senior Secondary Education (Class XII) Apr 2019 – Jul 2020
National Public School, Yamunanagar, Haryana

Matriculation (Class X) Apr 2017 – Jul 2018
National Public School, Yamunanagar, Haryana

SKILLS

Technical Skills

- **Languages & Web:** HTML5, CSS3, JavaScript (ES6+), C++
- **Frontend Development:** React.js, Next.js, Hooks, Context API, Tailwind CSS, Responsive Design
- **Backend & Databases:** Node.js, Express.js, MongoDB, PostgreSQL, RESTful APIs
- **Concepts:** Data Structures(Intermediate)
- **Tools:** Git, Github, Postman MS Office

Soft Skills

- Team Player
- Adaptable and Quick Learner
- Good Communication Skills

PROJECTS

InterviewIQ.ai | Live Demo

Full-Stack Project | MERN (MongoDB, Express.js, React.js, Node.js), Tailwind CSS

- Developed and launched a full-stack AI mock interview platform using the MERN stack, featuring automated performance feedback loops for users.
- Architected a clean RESTful API with Node.js, Express, and MongoDB to handle secure user sessions, data routing, and platform state.

- Built a highly responsive, component-driven user interface in React.js and Tailwind CSS, keeping the design modular and optimizing load speeds across mobile and desktop devices.
- Integrated a seamless, secure in-app payment gateway directly into the application flow to handle transactions smoothly without external redirects.
- Deployed the application on **Render** with continuous deployment pipeline for reliable production hosting

Car Rental | Live Demo

Full-Stack Project | MERN (MongoDB, Express.js, React.js, Node.js), Tailwind CSS

- Built a full-featured car rental application complete with secure user authentication, interactive vehicle listings, and a dynamic booking engine.
 - Designed and implemented backend RESTful APIs to handle CRUD operations, route protection, and role-based access control for different user tiers.
 - Created a polished, modern UI using React.js and Tailwind CSS, focusing on clean state management and smooth client-side navigation.
 - Utilized MongoDB for flexible data storage and wrote structured Express/Node backend logic to keep API responses fast and reliable.
-

Welth | Live Demo

Full-Stack Project | PostgreSQL (Supabase), React.js, Node.js, Tailwind CSS ,Next.js

- Developed a modern wealth and expense tracking application using Next.js, PostgreSQL (Supabase), and Tailwind CSS.
- Built an automated receipt scanning and data extraction feature that parses text and auto-categorizes expenses for users.
- Implemented a budget planning engine that tracks spending thresholds and triggers real-time alerts when users approach their limits.
- Created interactive user dashboards using Next.js to provide real-time visual reports on cash flow, savings, and multi-currency accounts.
- Real-time dashboards & reports — interactive dashboards that keep you updated on spending, savings, cash flow.
- Secure & user-friendly interface — designed to stay simple even for users without a finance background.

CERTIFICATIONS

Build Responsive Real—World Websites with HTML and CSS

06/2023 – 08/2023

Completed a comprehensive course covering modern HTML5, CSS3, Flexbox, Grid, and responsive design.

The Complete Full-stack Web Development Bootcamp

12/2024 – 07/2025

Completed an in-depth bootcamp covering frontend and backend development using the MERN stack, REST APIs, authentication, and deployment.
